## About me:

I am a technical consultant specialized in backend development for Enterprise Systems. I am certified as an Oracle Database PL/SQL Certified Professional and Oracle Certified Associate Java SE 8 Programmer. I also have experience in developing front-end, back-end and database solutions.

## Work Experience:

### **Backend Developer (Oct 21 - present)** **Amaris Consulting**

Development and improvement of server processes built in Java.

### **Backend Engineer (May 21 - Aug 21)** **Proactivity (Fortitude Group)**

Development of new features for a bank's HR systems built on Spring Framework. Migration from Java 7 to Java 11. Query optimization of Oracle DB views.

### **Technical Consultant (Aug 20 - May 21)** **TS Net S.A. - Peru**

Development of a Project Management System using Oracle APEX and Java. Development and support to existing integrations and solutions deployed in Java Cloud Service SaaS Extension and Oracle Service Bus.

### **Oracle Developer (May 18 - Jul 20)** **MAC CONSULTANTS S.A.C. - Peru**

Developer in technical consulting projects for Oracle solutions (EBS/Cloud). Development of external systems using Oracle technologies such as Oracle APEX and Oracle ADF (Java Framework). Development of Web Services using Java and enterprise reports using Oracle BI Publisher and Jasper Reports.

### **Oracle Junior Consultant (Jul 17 - Mar 18)** **Solutions Sage S.A.C. - Peru**

Technical consulting for public and private companies using Oracle enterprise systems (Oracle EBS / Oracle Cloud). Development of extensions and enterprise reports for these systems. Frequent use of PLSQL, Java and XML.

## **Side Projects:**

### ***Lux Systems (Sep 21 – present)***

Thesis project. Backend development and Infrastructure management for SaaS projects. Use of Spring Boot as a backend framework. Use of Jenkins as a CI/CD automation server. Use of Docker for containerization platform.

### ***Freelance Developer (Mar 18 – Sep 19)***

Freelance developer for software development consulting companies and small companies. Use of frontend frameworks such as Angular (Typescript) and Bootstrap (CSS). Use of backend frameworks such as Spring Boot (Java) and Laravel (PHP).

## **Certifications:**

### ***Oracle Database PL/SQL Developer Certified Professional (International Certification)***

Oracle (2021)

(<https://www.credly.com/badges/4dc54ba6-ae45-40d8-8600-f75e0d783f25>)
